Miniproject. (OTP Generator)

Generate a 6 character OTP.

```
import random as r
import string
length = 8
Otp = ' '
Characters = string.ascii-letter +
                        string.digits
Print (characters)

For i in range (length):
    Otp = Otp + r. choice (characters)

Print ("OTP!", Otp)
```

Output:

```
abcdef ghijklmno pqrstuvwxyz
-ABCDEFGHIJKLMNOPQRSTUVWXYZ
-0123456789
OTP :  3i0nrkMa
```
